MISSION

J.A.C.K. Contractor Services' mission is to develop solutions that assist our customers in their endeavors, using the most efficient and cost effective methods possible. For this reason, we embrace state-of-the-art procedures that reduce the environmental and social impact from road and building construction projects. The by-products of this commitment are excellence in our work, safety and diplomacy on the job site and outstanding administrative support for our customers.

CORE COMPETENCIES

J.A.C.K. Contractor Services provides a full spectrum of Vacuum Truck Services for wet and dry applications. The company specializes in Sewer Cleaning, Hydro Excavating and Pipeline Televising. Our full-time crew possesses varying professional certifications and experiences in the range of services that we provide. We support our team with a fleet of name-brand, well-maintained vehicles and a company culture that promotes integrity and excellence in the work we perform.

Sewer Cleaning

- ◆ Sewer Piping
- ◆ Catch Basins
- ◆ Manholes

Pipeline Televising

- ◆ Quality Assessment
- ◆ Damage Assessment
- ◆ Locating Assets
- ◆ Routine Assessments

Hydro Excavating

- ◆ Pot holing
- ◆ Slot Trenching

PAST PROJECTS

J.A.C.K. Contractor Services has served a clientele of general contractors, engineering companies and contractors in the electrical, plumbing, paving, sewer, and geo-technology trades, since 2005. This service has included work for numerous projects throughout the Chicagoland area, Will and Kankakee Counties, Northwest Indiana and the state of Wisconsin. Highlighted below are some of the services we've provided to assist our clients in serving well-known government and corporate entities.

Peoples Gas – In 2014, J.A.C.K. Contractor Services provided Hydro Excavating services for the construction of this utility company's new distribution system.

O'Hare Airport – In 2005, J.A.C.K. Contractor Services completed 30 projects involving potholing for one of the nation's third busiest airport.

Metropolitan Water Reclamation District - J.A.C.K. Contractor Services provided tack cleaning and power washing for this special-purpose district which operates the largest wastewater treatment plant in the world.

Chicago Transit Authority Red Line - J.A.C.K. Contractor Services provided Pipe Line Televising for the CTA's massive Red Line South Reconstruction project.

Illinois State Toll Highway Authority – J.A.C.K. Contractor Services has provided Hydro Excavating for all four of Illinois' major toll ways.
